Child with a disability or a disorder: the basic amount increases depending on the severity of the disorder

ACCORDING TO THE CHILD'S SITUATION

A support allowance (child with a disability/disorder and at least 12 points on the medical-social scale) can be granted in Flanders and in Brussels.
A foster care supplement and participation supplements (= child care, preschool and schooling premium) can be granted in all 3 regions if the child is in a Dutch school.

Child benefit fund Parentia pays child benefits on behalf of the COCOM government. The amounts and conditions are determined by ordinance and are identical for all Brussels child benefit funds. More information: www.iriscare.brussels/allocations-familiales

GROEIPAKKET

Every child is entitled to a Growth package. The Flemish government provides the resources for this. Parentia is a recognised payment organism. You can choose your payment organism yourself (Parentia, Infino, MyFamily, KidsLife, Fonzi). Changing organisms is possible after one year. www.groeipakket.be

Every region has its own amounts and rules. The legal place of residence of the child determines which region has the authority to pay. Families can be affiliated to the payment organism of their choice in their own region. If they are to move to a different region, they have to choose a (new) payment organism.

Situation on 01/03/2026. No rights can be derived from this chart.
